SKILLS

Javascript / React / jQuery

Node.js / MongoDB

HTML / CSS / SCSS / EJS

Bootstrap

PROFILE

Building fantastic software is more than a job to me. It is a full-fledged passion. I am fascinated by the endless possibilities that software provides the world.

PROJECTS

Cards (cardapp77.herokuapp.com)

Create, save, and print simple greeting cards using your own photos with a free account. Or use stock photos as a guest.

Used Javascript, Node.js, express, EJS, MongoDB, jQuery, Passport.js, HTML, CSS, and Bootstrap.

FamSocial (famsocial.herokuapp.com)

A social media platform designed for whoever you call your "fam".

Used Javascript, Node.js, express, EJS, webpack, MongoDB, jQuery, Passport.js, HTML, SCSS, and Bootstrap.

EDUCATION

Bachelor of Science, Accounting, Utah Valley University, Orem, Utah. Dean's list. Graduated Cum Laude Fall 2017.

Associate of Arts, General Studies with an emphasis in social and behavioral sciences, Palomar College, San Marcos, California. Dean's list. December 2014.

EXPERIENCE

Tax Associate, Eide Bailly, Salt Lake City, Utah, January 2020–Present

Prepare tax returns for individuals and businesses. Provide tax advice. Manage tax projects with clients and peers.

Technical Architect/Senior Tax Associate, Canopy, Lehi, Utah, July 2018-January 2020

Researched tax forms and wrote code to generate U.S. and state income tax forms in Canopy tax software. Designed user-interface components. Interpreted XML files generated from tax software. Trained colleagues to use complex proprietary rules engine. Worked closely with software engineering squads to ensure Canopy's tools solve the jobs to be done. Performed code reviews and provided feedback to peers. Worked in an agile/SCRUM environment.
