SKILLS

Javascript (ES6) / React

Node.js / MongoDB

Express.js

HTML / CSS / EJS

Bootstrap / Git

PROFILE

Highly motivated web developer seeking to launch a career in building first-class applications. 2+ years experience learning the ins and outs of web development and building websites.

PROJECTS

Burger Barn (https://burger-barn-1827.herokuapp.com, https://github.com/nme077/burger-barn)

Menu, location, and hours of Burger Barn; a restaurant in Jeffersonville, Vermont. The admin panel provides the means to edit the menu.

Uses the MERN stack (MongoDB, Express, React, Node)

Cards (cardapp77.herokuapp.com, github.com/nme077/card_app)

Create, save, and print simple greeting cards using your own photos with a free account. Or use stock photos as a guest.

Uses Javascript, Node.js, express, EJS, MongoDB, jQuery, Passport.js, HTML, CSS, and Bootstrap.

EXPERIENCE

Technical Architect, *Canopy, Lehi, Utah*   *July 2018-January 2020*

- Wrote code in Canopy's proprietary programming language to accept user input, calculate tax, and file personal tax returns. Write code to output to XML files that adhere to the IRS's strict requirements. Design user-interface components.

- Trained peers to write code in Canopy's software. Reviewed work done by peers before pushing to production. Performed code reviews to ensure adherence to formatting standards and provide advice to write cleaner code.

- Worked with an agile coach to complete work in sprints. Worked with software engineering teams to propose bug fixes and new features.

EDUCATION

Bachelor of Science, Accounting Utah Valley University   *2015 - 2017*
- Graduated Cum Laude

Associate of Arts, **General Studies** Palomar College   *2012 - 2014*
- Dean's list
